

## **Welcome address to exhibitors and visitors to Technoforum 2018**

Let me, on behalf of the Russian Chamber of Commerce and Industry, welcome the exhibitors, visitors and organizers of the Technoforum 2018 international exhibition.

An accelerated revamp of the Russian manufacturing industry bears a decisive importance for the sustainable development of this country's economy.

Technoforum and its associated events give industry professionals every opportunity to see innovative developments and ideas in the field of construction materials processing, and select tools and equipment required for specific production goals.

I am positive that the show will once again be a meeting point for manufacturers and developers of knowledge-intensive products with representatives of industrial businesses, and a showcase of the latest instruments, smart machine tools, and high-precision devices based on nanotechnology.

**Sergey Katyrin**

**President**
